GREAT

Wisely Boost your Production System Performance

RICO Integrated Performance and Maintenance 4.0

IDS Based Real time Machine Performance Analytics and Maintenance Management Service accessible from any device.

Features

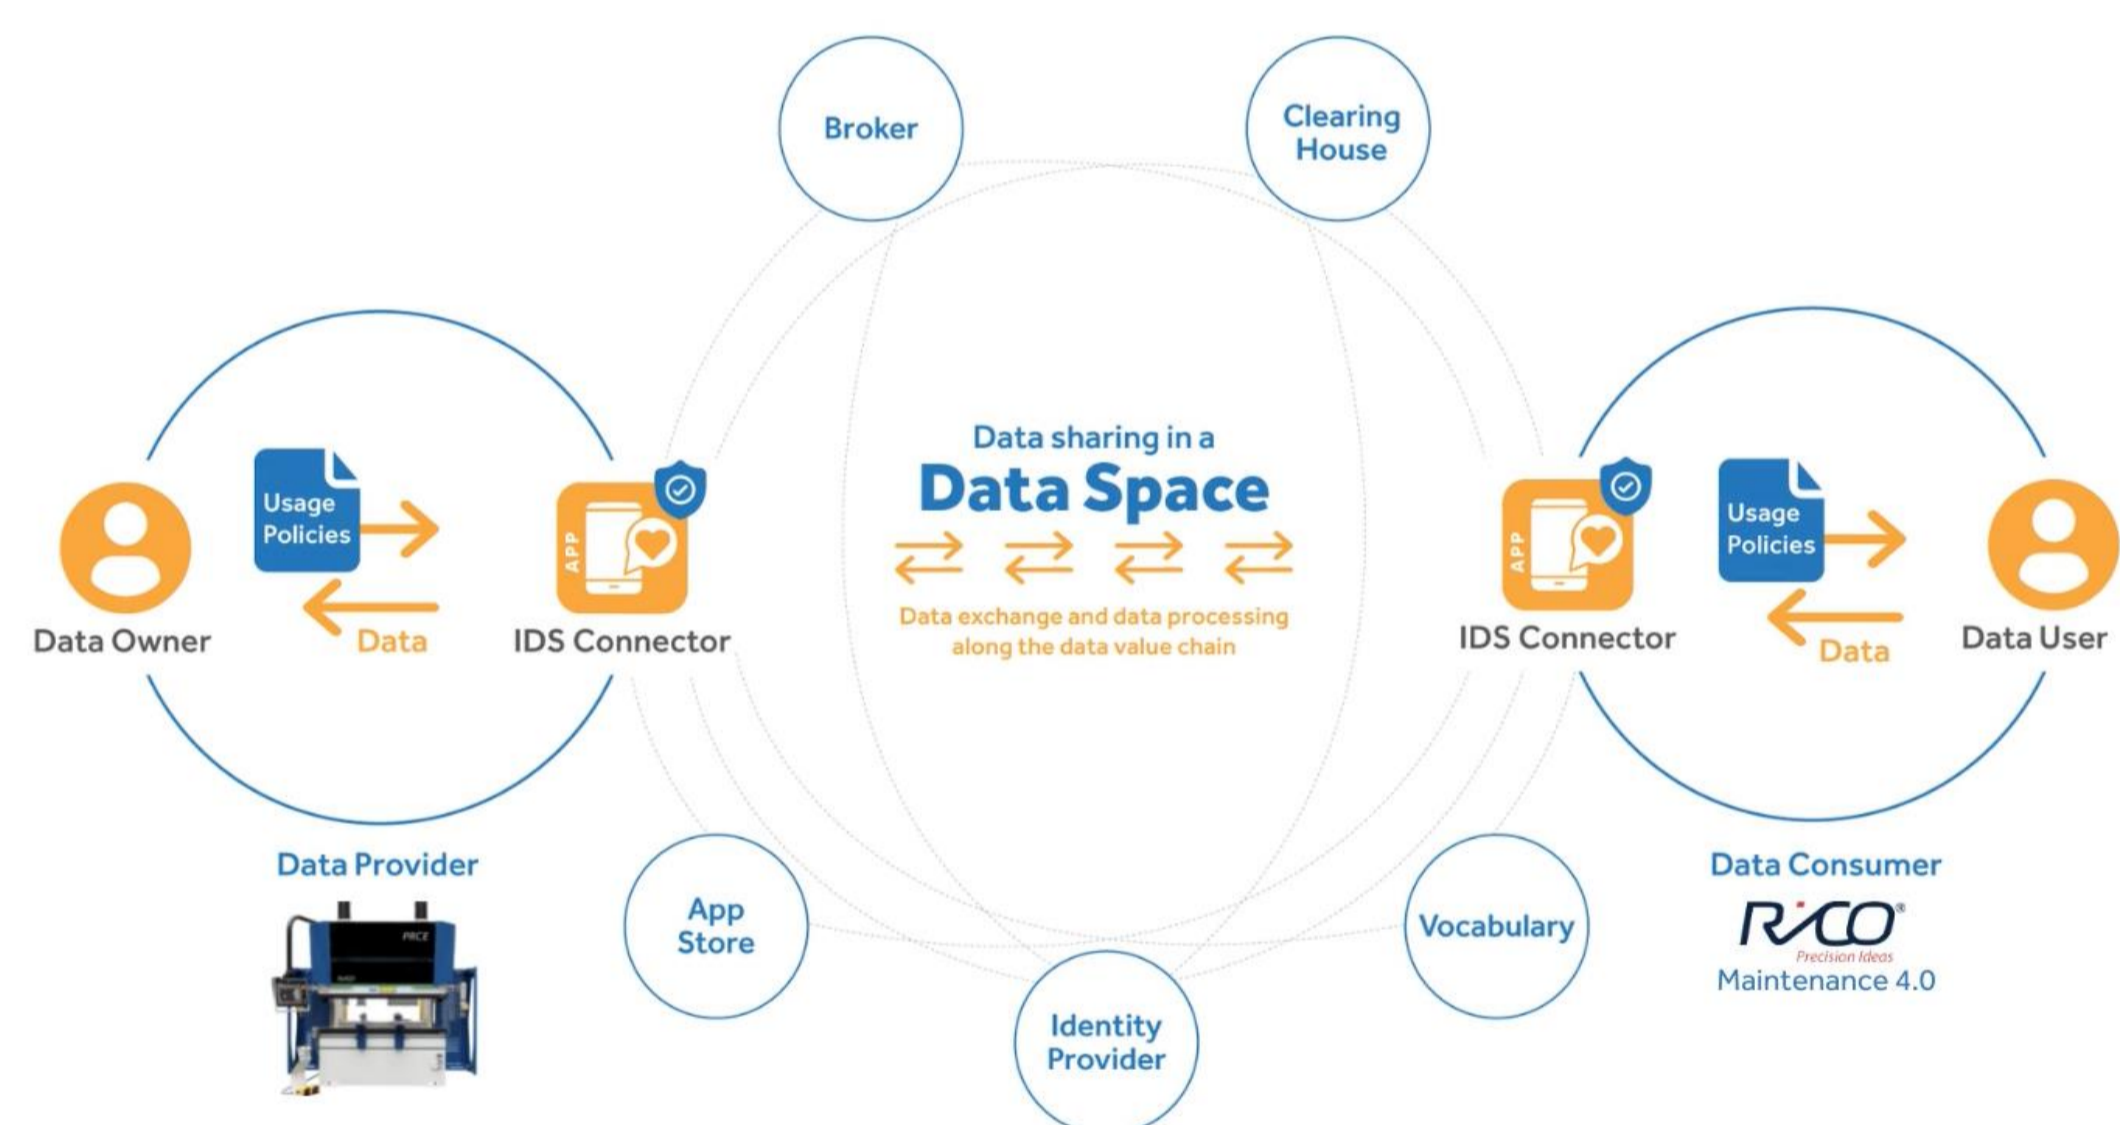

- Production and maintenance management
- IDS Connectors based communication
- High level of usability
- Multi-platform
- Multi-machine

Benefits

- Improved visibility over machine data
- Enhanced Machine Productivity
- Maintenance Plan Control and Report

Service/Application validation

Applied and Validated in real production facilities, integrating RICO bending and cutting machines.

Acknowledgment

This work has been performed in the context of the **Sub-project name** project, an open call #1 winner of the H2020 MARKET4.0 project (market40.eu), with participation of
