

“The Long Tail” in Supply Chains

Supplier Portal

The project aims to create a platform for easy exchange of information between manufacturers and smaller suppliers without an ERP Systems to extend the digital supply chains in Europe. It supports the digitalization of smaller companies and reduces the often manual agreements and actions between the suppliers. The aim is to create a web-based solution using the SCSN interface (SCSN = Smart Connected Supplier Network).

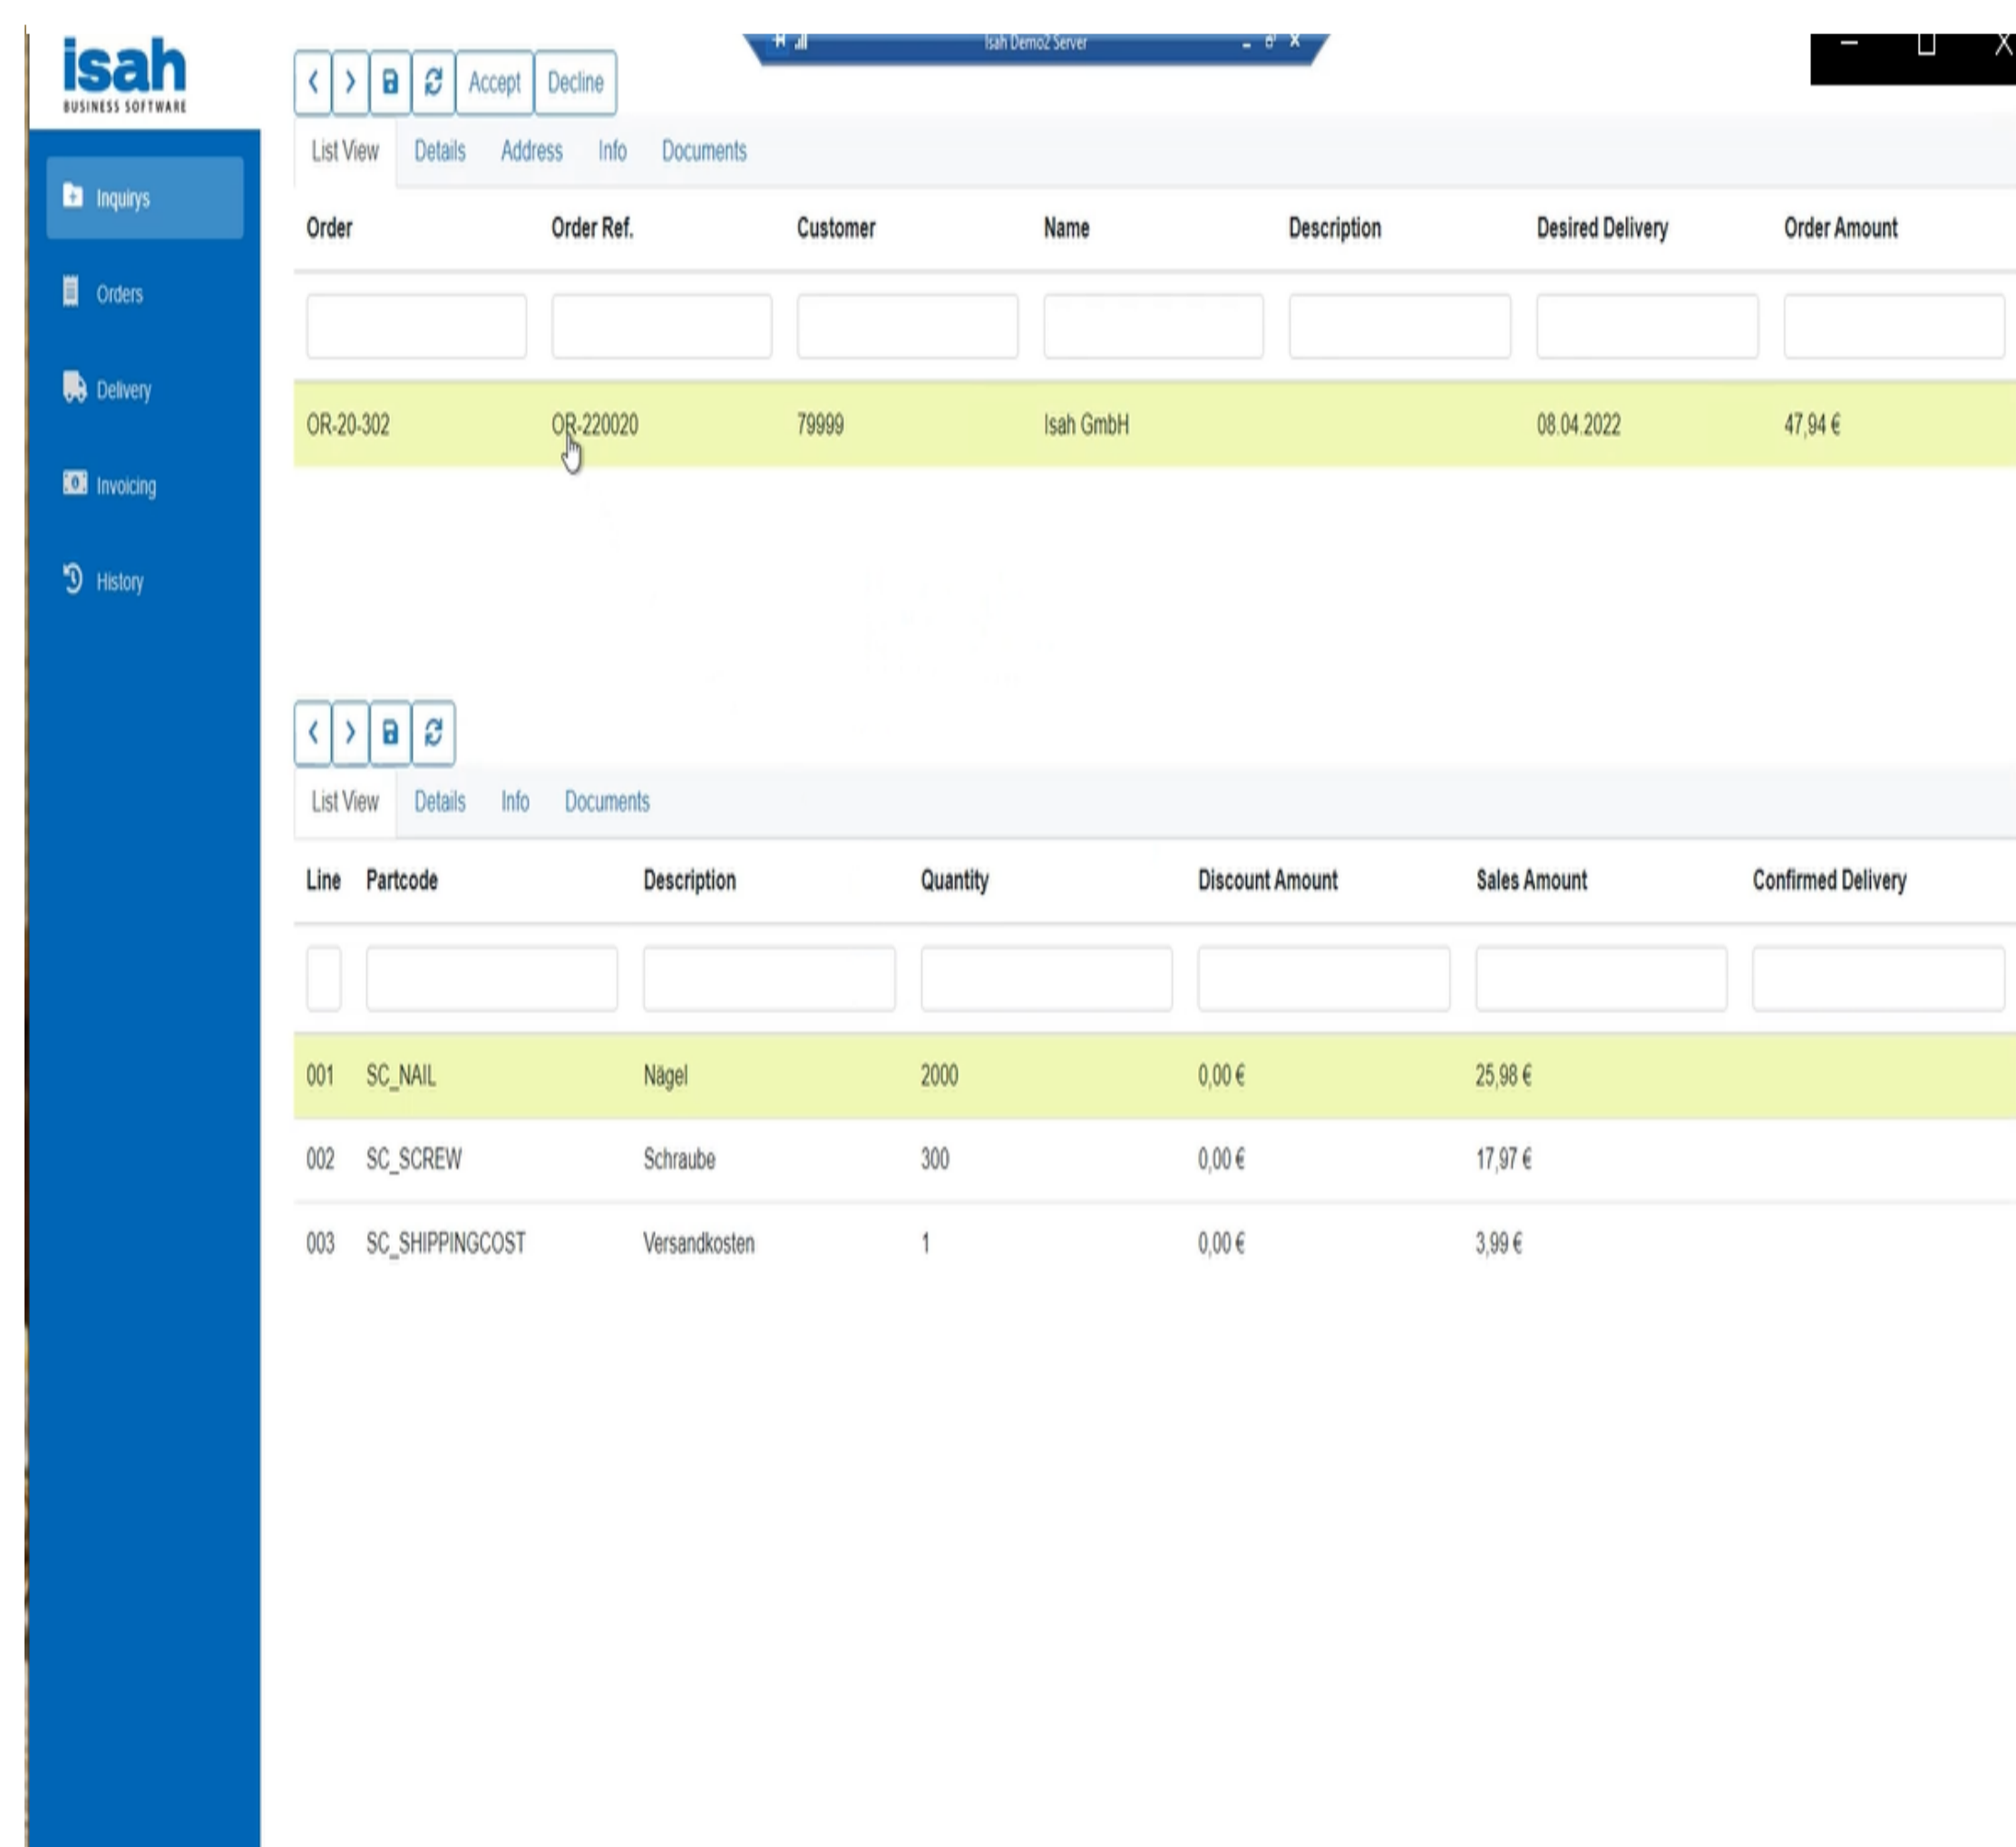

Features

- Easy flow of information
- Using SCSN-technology and standards
- Intuitive
- No need for an ERP-System for smaller suppliers
- Contains “ERP Light” functions

Benefits

- Digital data exchange
- Structured order flow
- Up-to-date order information
- Order history
- Less manel communication

Acknowledgment

This work has been performed in the context of to fully integrate the flow of information from suppliers into supply chains project, an open call #1 winner of the H2020 MARKET4.0 project (market40.eu), with participation of
